Plumbing Permit

Plumbing and gas work, irrigation systems. (For Fire sprinkler and fire suppression hoods, Fire Sprinkler Application must be used)

*If installing new gas lines or locks, a Gas riser diagram is required in addition to plans.

**If plumbing job is part of a bigger construction or alteration, plumbing permits can not be issued until building permit is approved.

***Required for Plumbing permit:

- Plumbing Permit Application

- Three sets of plans (not required for replacements like for like).

- Copy of Contractor's license or Owner's affidavit if no contractor is listed.

- Plans are not required if initially incorporated into building permit plans.***

- Permits are issued within two days UNLESS plans are submitted along the application.
